Subject : Al Manhal Project Financing to French Polynesia

Mr. Chairman,

From the outset, I wish to acknowledge receipt, with many thanks, of your May 8th 2016 letter which main objective was to inform us of your Group's intention to invest in French Polynesia in key sectors, such as tourism, maritime transport and energy.

I wish to extend to your Group my Government's appreciation for your investments' projects which will contribute to the economic and social development of French Polynesia, at large.

French Polynesia represents à 5 million Km² located in the center of the South Pacific. This situation pave the way to numerous opportunities in various strategic sectors.

Therefore, I have instructed the Vice president of French Polynesia, Mr Nuihau Laurey, also member of the French Senate, in charge of budget, finance and energy, and Mr Albert Solia, Minister for equipment, urban development and interior transport to liaise with you, as soon as possible, in order to further discuss the framework of your Group's intervention in French Polynesia.

Mr Solia is also President of the Tahiti Investment Board dedicated to consider all investment projects in French Polynesia.

May I suggest a first meeting to be held in the French Polynesia Delegation located in Paris. Mr Laurey and Mr Solia will soon contact yours colleagues, namely Mr Pujo and Hatim in order to organize such meeting.

If this is agreeable to you, I could also meet you at a later stage as I will be in Paris around June.

Sincerely yours.
